## Calligraphy Patterns & Decorative Borders

In this one-day workshop, we move beyond letterforms into patterned edges, simply constructed borders, and linear decoration. You will learn how to enhance and add flair to finished artwork using broad-edged markers and watercolors. Students will explore a wide variety of examples, as well as create their own organic designs and architectural repetition.

## Modern Storybook Script

A charming, casual, upright, easy script with a fresh, modern twist to the traditional alphabet. In this two-day workshop, you'll learn a series of simple strokes that form this whimsical yet elegant alphabet. You will have a new, useful and versatile alphabet style that is easy to make uniquely yours! We will explore the creation of a successful and balanced layout using the elements of composition, spacing and proportion.
